DIY AUTO REPAIR

with Auto Repair Source

What is Auto Repair Source?

Powered by the automotive experts at MOTOR, Auto Repair Source provides the most accurate, authoritative and up-to-date service and repair information for thousands of domestic and imported vehicles.

All content comes from the Original Equipment Manufacturers (OEM).

How do I access Auto Repair Source?

1. Visit your library's website and look for the eResources menu link, or visit marigold.ab.ca/eResources.
2. From the alphabetical list, locate the link to Auto Repair Source.
3. Log in with your library card barcode and library PIN.
(If you do not know your library PIN, contact your local library.)

Content

Designed for touch-enabled devices such as laptops and tablets, Auto Repair Source offers a user-friendly search experience and access to a wealth of information to help users diagnose, repair, and maintain today's complex vehicles.

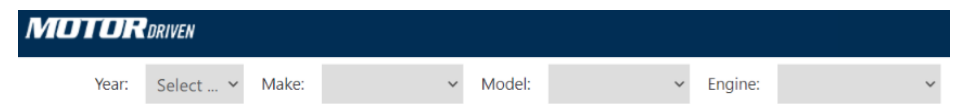

Auto Repair Source contains the following:

- Service information optimized for the most common maintenance and repair operations.
- Technical service bulletins and recall notices.
- Component location diagrams for most domestic and imported cars and light trucks.
- Precise and comprehensive wiring diagrams for all systems.
- Maintenance schedules and estimated labour times for the most commonly performed operations in a mechanical repair shop.
- Engineering specifications/standards for the most common repairs and adjustments
- Diagnostic trouble codes (DTCs), flowcharts, and step-by-step diagnostic instructions.
- Parts numbers, diagrams, and pricing for thousands of the most commonly replaced parts.

Diagrams and images can be easily magnified and printed.

Search

Search for a vehicle by selecting the YEAR, MAKE, MODEL, and ENGINE from the drop-down menus:

The screenshot shows the MOTOR DRIVEN logo at the top. Below it is a search interface with four dropdown menus: Year (with a 'Select ...' placeholder), Make, Model, and Engine. Each dropdown menu has a small downward arrow icon.
